

INTERVIEWANSWERS.AI

AI Interview Preparation

AI-powered interview coaching for every major — built for career services teams who want to scale 1-on-1 interview prep across their entire student body.

Prepared for USF Career Services • March 2026

THE OPPORTUNITY

Scale Interview Prep Without Scaling Staff

Career counselors can only run so many mock interviews per week. Students who need practice outside business hours, on weekends, or during exam periods often go without. InterviewAnswers.AI gives every student access to a live AI mock interviewer that's available 24/7 — not as a replacement for counselors, but as a force multiplier.

Complements your existing tools and team.

InterviewAnswers.AI works alongside Big Interview and your career counseling staff. Students use it for extra reps — the kind of repetitive practice that builds confidence but is hard to schedule with a real person.

PRODUCT

What Your Students Get

AI-powered interview preparation that works for business, education, arts & sciences, engineering, and every other program at USF.

Live AI Mock Interviewer

Conversational practice that adapts in real-time. Not pre-recorded video — an actual AI interviewer that listens, follows up, and challenges.

STAR Method Coaching

Structured coaching on the Situation-Task-Action-Result framework — the gold standard for behavioral interview answers.

Real-Time Feedback

Immediate coaching on communication quality — structure, specificity, confidence, and clarity. Students improve with every practice session.

Practice Mode

Self-paced question practice for students who want to build answers at their own speed before jumping into a full mock interview.

Live Prompter

Real-time interview coaching that listens to the conversation and suggests talking points — like having a career coach in your ear.

Works for Any Major

Business, education, arts & sciences, engineering, nursing — the AI adapts its coaching to the student's field and experience level.

WHY US

What Sets This Apart

CAPABILITY	INTERVIEWANSWERS.AI	BIG INTERVIEW	OTHER AI TOOLS
Live conversational AI mock interviewer	✓	Video-based only	✓

We complement what you already have.

Big Interview is great for structured video-based practice. InterviewAnswers.AI adds live conversational AI that listens and responds in real-time — closer to a real interview experience. Students benefit from both.

HOW IT WORKS

Simple Setup for Career Services

We build a branded partnership page for USF. You distribute access codes. Students sign up in 30 seconds.

1

We create your USF-branded page

Students visit interviewanswers.ai/usf — a co-branded landing page that looks and feels like a USF Career Services partnership.

2

You distribute access codes

Career Services controls who gets codes, how many, and when. Share through existing student channels — email, Canvas, advising sessions, career fairs.

3

Students activate and start practicing

Enter the code, create an account, and they're in. No credit card. No billing confusion. Just interview prep, immediately.

4

You get signup reporting

We provide aggregate signup data so you can track adoption. Data you can bring to your VP to show ROI.

5

Scale anytime

Need more seats mid-semester? We generate more codes. Want to expand to more programs? No contract renegotiation needed.

PRICING**InterviewAnswers.AI — Institutional Options**

All options include a branded USF page, access codes, and aggregate signup reporting. Priced off our retail rate of \$14.99/month. More students = deeper discount.

Retail: \$14.99/month (\$59.96/semester). Semester = 4 months of access.

Why semester?

Recruiting doesn't follow a 30-day calendar. A business student might have first rounds in September, callbacks in October, and final rounds in November. Semester access lets every student practice on their own timeline without losing access between interview cycles.

CAMPUS-WIDE

Cover Every Student at USF

Like adding a career coach who can work with every student 24/7 — not 250 per semester, but all 8,913.
