

## NURSEINTERVIEWPRO

## Nursing Interview Preparation

AI-powered nursing interview coaching — built for career services teams who want to give their nursing students a competitive edge.

Prepared for USF Career Services • March 2026

## THE GAP

## Your Nursing Students Are Interviewing Without Nursing-Specific Prep

General interview tools teach great fundamentals — STAR method, body language, confidence. But nursing interviews are different. Hiring managers ask about clinical judgment, SBAR communication, patient safety priorities, and care coordination. No general tool prepares students for that.

**NurseInterviewPro fills the nursing-specific gap.**

We don't replace your existing interview tools. We complement them. Your students keep their general prep AND get a dedicated nursing interview coach that speaks their language — SBAR, clinical judgment, prioritization, handoff communication.

## PRODUCT

## What Your Nursing Students Get

The only AI-powered interview coach built specifically for nursing. Every question reviewed by licensed nurses. Every framework grounded in clinical standards.

**Clinically Validated Questions**

Written and reviewed by licensed nurses and nurse educators. Covers behavioral, clinical judgment, situational, and specialty-specific scenarios.

**Live AI Mock Interviewer**

Conversational practice that adapts in real-time. Not pre-recorded video — an actual AI interviewer that listens, follows up, and challenges.

**SBAR Communication Coaching**

Structured drill on Situation-Background-Assessment-Recommendation — the

**Clinical Framework Alignment**

Questions and feedback grounded in NCSBN Clinical Judgment Model, Nursing Process, Maslow's Hierarchy, and ABC prioritization.

communication framework every nurse needs in interviews and on the floor.

Real-Time Feedback

Immediate coaching on communication quality — STAR structure, specificity, confidence, and clinical reasoning articulation.

Advisory Board Oversight

All clinical content reviewed by a board of licensed nurses. No AI-generated clinical scenarios — every question is human-validated.

HOW IT WORKS

Simple Setup for Career Services

We build a branded partnership page for USF. You distribute access codes. Students sign up in 30 seconds.

- 1

We create your USF-branded page

Students visit [nurseinterviewpro.ai/usf](https://nurseinterviewpro.ai/usf) — a co-branded landing page that looks and feels like a USF Career Services partnership.

- 2

**You distribute access codes**

Career Services controls who gets codes, how many, and when. Share through existing student channels — email, Canvas, advising sessions, career fairs.
- 3

**Students activate and start practicing**

Enter the code, create an account, and they're in. No credit card. No billing confusion. Just nursing interview prep, immediately.
- 4

**You get signup reporting**

We provide aggregate signup data so you can track adoption. Data you can bring to your VP to show ROI.
- 5

**Scale anytime**

Need more seats mid-semester? We generate more codes. Want to expand to all nursing programs? No contract renegotiation needed.

Retail: \$19.99/month (\$79.96/semester). Semester = 4 months of access.

Why semester?

Nursing students don't interview on a fixed timeline. A BSN senior might interview for ICU in October, get passed over, then try ED in December. Semester access lets them prep around clinicals and exams without losing access between interview cycles.

AFTER GRADUATION

Post-Graduation Support

Not every nursing graduate lands a job before their cap-and-gown is off. We don't leave them hanging.

During the Semester

Full access through the institutional partnership. Covered by USF.

After Graduation

USF graduates who need to continue practicing can subscribe at an **alumni rate of \$13.99/month** (30% off retail) for up to 3 months post-graduation. Student pays — no additional cost to USF.

Why this matters for Career Services

NACE First Destination Surveys track outcomes 6 months post-graduation. Students who are still job-searching after graduation are the ones who need the most support — and they're the hardest for Career Services to reach. The alumni rate keeps them connected to a tool they already know, at a price they can afford, without requiring any budget from your office.
